IRRIGATION IN EASTERN STATES.

The more general introduction of
irrigation practices in eastern humid
regions is a good thing for the West,
for with a more general familiarity
with the subject the better it will
be for that section entirely depend-
ent upon it when it comes to a ques-
tion of needed legislation. In Louisi-
ana the possibilities of irrigation
are great, and for an extremely
humid state it has already a com-
paratively large area under water
systems, amounting to something
over 100,000 acres, while the annual
rainfall of the state is double the
average for the whole country, be-
ing in the neighborhood of sixty
inches; yet Louisiana is subject to
the most serious drouths, especially
in the springtime when the crops
need moisture. The Mississippi
furnishes and unlimited water source
for much of the state and its waters
hold in suspension and solution
much matter of a fertilizing nature.
New Jersey is another state which
furnishes some excellent object les-
sons on artificial watering, and in
Wisconsin, on land receiving its full
share of the rainfall of the humid
belt, irrigation of small crops has
been shown to produce remarkable
returns over and above cost of pro-
duction and watering. The more
this sort of development effects the
East the less novel will be the sub-
ject and the less opposition will be
put forward by the intelligent peo-
ple of that section to a policy of
general Western reclamation.

In order to test the assertion that
"75 per cent of the drummers are
for Bryan this year," C. F. Brownell
of Brownell Hardware company,
Bath, N. Y., kept a record of the
political views of the drummers who
called at his store from July 4th to
September 1st. The vote shows:
McKinley, 86; Bryan, 9; Prohibition,
2; on the fence, 3; total, 99.

There is this phase of the great
industrial problem which we wish
in all seriousness to bring to Mr.
Bryan's attention: Will not his
wide use of the phonograph throw
out of work a great many able and
deserving stenographers who will
thereby be denied all chance of in-
dividual advancement in life?

The New York Herald affects sur-
prise because Mr. Bryan declines to
answer some pertinent questions on
the financial question. Mr. Bryan
has long since been made to under-
stand the danger of the interroga-
tion point and the surprise would be
if he should attempt anything
outside of his catch phrases.

In order to maintain a semblance
of consistency Mr. Bryan is now
compelled to admit that he was in-
sincere when he advised the ratifica-
tion of the Paris treaty.

GENERAL prosperity has been talk-
ing during this campaign for every
granary, workshop and store counter
in this broad land.

speeches four years ago, one might
easily have concluded that the sun
would stop shining and the rain
cease to fall unless 16 to 1 was
adopted without delay.

"Bryan's speeches," said Senator
Frye at Westbrook, Me., "have en-
couraged rebellion in the Philip-
pines. I say that I do not see how
any American can go back on our
soldiers. I say that this expendi-
ture of \$180,000,000 and 2,000 lives
is to be charged up against this anti-
American talk."

DESPITE the efforts of Mr. Bryan
and his political associates to em-
barrass the government the young
men of the country continue to vol-
unteer to uphold its honor. And
they are of the sort that will not re-
sign and go into politics when there
is a chance for them to face the
enemy.

FAILING in his effort to boss the
the Maryland Republicans, Mr.
Wellington has taken his political
playthings and moved over into the
Democratic party where bossism
stands a better show.

ACCORDING to Mr. Gorman's logic
Mr. Bryan deprived himself of the
right to oppose expansion when he
supported the ratification of the
Paris treaty. And Mr. Gorman is
somewhat of a logician.

FOUR years ago the Democratic
standard bearer said the gold Dem-
ocrats should get out of the party.
This year he says they should come
back. Is Mr. Bryan to destroy all
his 1896 declarations?

JERRY SIMPSON will give the Kan-
sas people one more opportunity to
send him to congress. The trouble
with Jerry is that he and the good
times don't match.

MA. ALTGELD's aspiration to be
chief justice of the Supreme Court
of the United States may as well be
placed on a chunk of Tammany
trust ice.

OF course the German voters of
the country, so-called, will do just
what Pa Schurz wants—if they can
ever find out what he really wants.

NO RECOGNIZED government op-
poses the United States in the Phil-
ippines. The entire opposition comes
from Aguinaldo and the Democrats.

THE misquotations of the Demo-
cratic leaders are numerous enough
to make Lincoln and Jefferson turn
over in their graves.

MR. BRYAN should write a letter of
acceptance to the Filipino junta.

THESE are also hard times for the
poor houses.

LING OVERRULED.

His Ruling in Poll Tax Case Set Aside
by Judge Sloan at Flagstaff.

In the district court at Flagstaff
Saturday Judge Sloan rendered a
decision sustaining the poll tax law.
The case was brought up by Saxton
S. Acker against a Flagstaff justice
of the peace, E. E. Ellinwood ap-
peared for Acker. The question
was ably argued on both sides and
Judge Sloan delivered a lengthy
opinion in which he upheld the law.

Notice of appeal was given but the
attorneys who brought the suit
admit that Judge Sloan's decision is
correct. Reese Ling, however, may
conclude to set aside the Sloan de-
cision, as it is in conflict with the
"Declaration of Independence" as
found in the law books of Mr. Ling.

'Twas Ever Thus.

The following is from the pen of
a Missouri editor: "Drink and the
gang drinks with you; swear off and
you go it alone, for the barroom
bum who drinks your rum has a
quenchless thirst of his own. Feast
and your friends are many, fast and
they cut you cold; they do not get
mad if you treat them bad, so long as
their stomachs are fed. Steal if you
can get a million, for then you can
furnish bail; it's thee great big
thief who gets out on bail, while the
little ones go to jail. Advertise and
the dollars will come; quit and they
fail to arrive; for how are men who
have money to spend, going to know
you are still alive."

Reclaim the Desert.

History shows that it has been in
the irrigated regions of the earth
that not only the densest but more
highly civilized population have
found their homes. The great val-
leys of the West if properly re-
claimed offer boundless possibilities.
The building of storage reservoirs
and the reclaiming of arid America
would rapidly and enormously en-
large the demand for everything the
West buys from the Eastern mer-
chant and manufacturer.

NEIGHBORING NEWS

bracing wind.

The Post baseball team crossed bats with
the Indian school team here Saturday. The
home team was two men short, and the vacan-
cies were filled by Mr. Rostelle and the
"Woods kid" who sells bacon and dry goods
at Wooster's. The game was exciting, but
about the middle of the sixth inning the
score keeper announced that all the "space"
had been used on the tally sheet. Every-
body being tired and hungry, it was decided
to quit and count the score, which stood 38
to 17 in favor of the post team. Preparation
for a closer game next Saturday is being
made on both sides.

change has not been for the better.

A Night of Terror.

"Awful anxiety was felt for the
widow of the brave Gen. Burnham of
Machias, Me., when the doctors said
she would die from pneumonia be-
fore morning," writes Mrs. S. H. Lin-
coln, who attended her that fearful
night, but she begged for Dr. King's
New Discovery, which had more
once saved her life and cured her of
consumption. After taking, she slept
all night. Further use entirely
cured her. This marvelous medi-
cine is guaranteed to cure all throat,
chest and lung diseases. Only 50c

Stood Death Off.

E. B. Munday, a lawyer of Henri-
etta, Tex., once fooled a grave-dig-
ger. He says: "My brother was
very low with malarial fever and
jaundice. I persuaded him to try
Electric Bitters and he was soon
much better, but continued their use
until he was wholly cured. I am
sure Electric Bitters saved his life." This
remedy expels malaria, kills
disease germs and purifies the blood;
aids digestion, regulates liver, kid-
neys and bowels, cures constipation,

troubles, female complaints; gives
perfect health. Only 50c, at F. J.

A Shocking Calamity

"Lately befell a railroad laborer,"
writes Dr. I. Kellett of Willford,
Ark. "His foot was badly crushed,
but Bucklen's Arnica Salve soon
cured him. It's simply wonderful
for burns, boils, piles and all skin
